

106S Hidden Wells Class Friday 5th July

Janet Waring

Session: 2 x 3hr

Level: All Levels

Janet is a retired Home Economics teacher. She is committed to teaching sewing and quilting. She runs short workshops and courses in Howick which has resulted in many newly retired people taking up quilting as a retirement hobby.

DETAILED COURSE DESCRIPTION:

This is an exciting way of using strip piecing to create the Hidden Wells block. The design looks like a clever log cabin. However, it's the cutting and reassembling of the strip pieces that create the illusion. Students will be astounded by the effects that can be created using this method.

Student Requirements:

Nine different colour co-ordinated fabrics. One of the fabrics needs to contrast with the others either in colour or value. This will create the focus.

Half a meter of each fabric will make a generous single bed quilt or a double bed quilt.

Alternately you can use five or seven different colour co-ordinated fabrics which will make smaller squares and therefore a smaller quilt.

A sewing machine in good working order cleaned and oiled with a new machine needle.

Extension cord and adaptor.

Quarter inch foot.

Neutral thread for piecing and bobbins wound with the same thread.

Cutting mat.

Rotary cutter and spare blade.

Quilting ruler (24inch).
Basic sewing supplies.
