

307S Curved log cabin cushion Sunday 7th July

Erla Cilliers

Session: 2 x 3hr

Level: Intermediate

Erla was instantly hooked on quilting the moment she was first exposed to this textile art form in 2000. In her day job she has a lot to do with training; therefore, obtaining her SAQG Quilt Teacher Accreditation in 2015 was inevitable. Erla loves clever quilts, quilts with unexpected secondary designs, and ones with three dimensional elements. If you leave Erla's class feeling empowered and enthusiastic, she will be happy.

DETAILED COURSE DESCRIPTION:

This is a fun project using a triangular curved log cabin design which ends up as a hexagonal-shaped cushion cover. The end result will depend on which corner of the triangle goes into the centre. The main technique is foundation paper piecing, and the aim is to experience the possibilities of the curved log cabin.

Student Requirements:

Design board approx 12" x 12"

Sewing machine in good working order (remember your machine manual)

Extension cord and plug

Quarter inch foot

Cutting mat at least 12 x 12 inches

12 inch ruler

Rotary cutter with sharp blade

1 FQ in a solid colour of your choice or a fabric that reads as a solid

2 sets of graded complementary 2" strips, each strip at least 10" long, 7 colours per set. Graded strip sets can complement or contrast with the solid fabric

Small sharp scissors

Matching thread for your chosen fabrics and bobbins wound with this thread
Foundation piecing template will be provided
Basic sewing supplies
